DETAILED ACTION

Response to Amendment

1. Applicant's submittal of an amendment was received on August 15, 2005, wherein claims 1, 9 and 34 were amended.

Election/Restrictions

2. This application is in condition for allowance except for the presence of claims 32-33 to an invention non-elected without traverse. Accordingly, claims 32-33 have been cancelled.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

Claims 32 and 33 have been cancelled.

Allowable Subject Matter

4. Claims 1-31 and 34-46 are allowed over the prior art.

Art Unit: 3618

5. The following is an examiner's statement of reasons for allowance: Examiner agrees with Applicant that amended claims 1 and 34, are not anticipated by Lyons, because the Lyons reference does not teach replacing a battery with a bank of ultracapacitors and, thus does not teach providing a power management controller programmed to control output power of said power unit to maintain the bank of ultracapacitors between a predetermined high voltage set point and a predetermined low voltage set point.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
